Subject: Fambrough Drive

Hello Mayor Aron,

I join with many other Lawrencians, KU Alumni, and former KU football players in encouraging you and the Lawrence City Commission to change the small portion of West 11th Street to Fambrough Drive. It is a GREAT way to honor a real ambassador for KU and Lawrence in a way that will minimize the hardship of changing addresses for nearby residents. I would not support this if it was creating a hardship.

We that live here love our town and the many ahead of us who dedicated their lives to promoting KU and Lawrence. Don Fambrough was among the list of people who lived out his dream among us. We all benefited from his life and his efforts.

Thank you for your consideration of this matter.

Sincerely,

LARRY K. McELWAIN

Dave Corliss, City Manager
City Hall
6 East 6th Street
PO Box 708
Lawrence, KS 66044

Dear Dave and City Commissioner,

The Lawrence Memorial Hospital Endowment Association was inspired by former KU football coach Don Fambrough and his generous donations of time, talent and treasure to LMH and the LMH Endowment Association. He was not only an icon, but a legend. He had passion for the University of Kansas and the community and he supported Lawrence Memorial Hospital. In his honor, we support renaming a portion of 11th street between Mississippi and Missouri.

Thank you for your attention to this letter. If you have any questions you can email Kathy Clausing-Willis at Kathy.Clausing@lmh.org.

Sincerely,

A handwritten signature in cursive script that reads "Gene Meyer".

Subject: Street Name Change

I vote no to changing a street name. Changing the street name makes all street maps and any road atlas obsolete. Now we're talking some tax dollars as a result of changing a variety of Lawrence maps. Is it worth that for anybody?

Publicly encourage KU to build some kind of monument in his name for whatever reason. Leave it to KU for designing a system honoring their employees.

What about KU students and professors that which excelled in:

Graphic Design

Ballet

Natural History

Linguistics

Piano

Clean Energy

Biology

Education

LEED Architecture

Environmental Studies

Face it - if it were not for academic departments on a campus there would be no athletics.
