Subject: Request for joint study session with Health Board

Dave and Craig,

The Health Board and I would like to request a joint study session with the City and County Commissions in order to discuss the following:

- Present our 2011 Annual Report released earlier this week
- Show our video ["Let's Start a Conversation"](#) (click on link to view the video)
- Discuss with Commissioners the nature of the work we are undertaking in the community and our desire to work cooperatively with them on affecting broad community change designed to improve our health.
- Present our goals and objectives for 2012 including a discussion of the community health assessment and community health planning projects currently underway

We would like to hold this meeting in April or May but of course will work with your respective calendars. We look forward to the opportunity to meet and if you have questions please follow up with me.

Respectfully,

Dan Partridge, RS, MPH
Director
