RECEIVED

MAY 01 2012

CITY MANAGERS OFFICE  
LAWRENCE, KS

Dear Sirs,

In determining the use of State and Federal Funds to open up W. 15<sup>th</sup> St. to R-10, I would urge you to also consider the future costs of extending this route at the Local level.

There are currently 68 access points to Bob Bellings Parkway over a 4 mile length. A number of these i.e. Corpus Christi, George Williams Way, Inverness, Crossgate, etc. will require some sort of signalling to prevent snarl-ups or, at worst, accidents. These expenditures will place more burden on already stretched local dollars which should be used to improve ALL streets in Lawrence.

Please do not allow "free money" to color your decision making for the future of Bob Bellings Parkway.

Most sincerely,  
Jesse Hack
