Re: Glow Run

After viewing the proposed route, with its Glow Station set up just off the cul-de-sac on 14th Street west of Haskell, we would suggest that this section of 14th Street be closed to all but residents of this street and foot traffic. This Glow Station may draw a lot of spectators and revelers and this street is not wide enough to accommodate the excess vehicles due to the steep ditch along the south side. We think it would be safer to limit vehicle access to this cul-de-sac during this venture.

We would also like to ask the organizers of this run to place a volunteer at each entrance to our parking lots on 15th Street just west of the Trail to keep spectator vehicles from taking tenant parking spaces.

We wish the Glow Run fun and success.

Respectfully,

Lyndon and Kathi Mullis, Members KANMAR Mgmt, LLC dba/Ashbury Townhomes
