RE: Permit Modification Former Lawrence Nitrogen Plant
1608 North 1400 Road, Lawrence, Kansas
EPA ID No. KSD007128507

Dear Ms. Graves:

The U.S. Environmental Protection Agency Region 7 has received the City of Lawrence's permit modification request dated March 18, 2019, requesting a change in the expiration date of the EPA's Part II of the Hazardous Waste Post-Closure Permit issued to Farmland Industries (former Owner) to allow permit termination. After reviewing the permit modification request and information contained in our Site files, the EPA hereby approves the request. The Hazardous Waste Post-Closure Permit was issued on December 14, 1992 and became effective on February 18, 1993. Farmland Industries submitted a timely Post-Closure Permit Renewal Application under Title 40 Code of Federal Regulations § 270.14 in August 2002; therefore, the Part II of the Permit continued in effect from its original expiration date of February 17, 2003. As modified herein, the Permit shall expire on May 10, 2019.

If you have any questions regarding this letter or modification to the EPA's Part II of the Hazardous Waste Post-Closure Permit, please contact Ruby Crysler at (913) 551-7409.

Sincerely,

A handwritten signature in black ink that reads "Leslye Werner".

Leslye Werner, Chief
RCRA Direct Implementation Section
Land, Chemical & Redevelopment Division

Enclosure

cc: Julie Coleman, KDHE-BWM (w/enclosure)

PART II
EPA AUTHORIZATION UNDER THE HAZARDOUS AND
SOLID WASTE AMENDMENTS OF 1984

Pursuant to Section 227 of the Hazardous and Solid Waste Amendments of 1984 (hereinafter "HSWA") EPA is granted authority to issue or deny permits for those portions of permits affected by the requirements established by HSWA. By this authority and pursuant to Sections 3002(b), 3004(d), 3004(u), 3004(v) and 3005 of the Resource Conservation and Recovery Act (RCRA) as amended by HSWA, 42 U.S.C. §6922(b) and 42 U.S.C. §6924(u), EPA hereby grants to Farmland Industries, Inc., EPA ID Number KSD007128507, permission to perform activities required by HSWA at their facility located in Lawrence, Kansas, in accordance with the conditions of this Permit.

This Permit addresses the corrective action requirement for solid waste management units and other HSWA requirements as administered and enforced by EPA. Applicable regulations are found in 40 CFR Parts 260 through 264, 268, 270, and 124, as specified in this Permit.

This Permit shall become effective at 12:01 AM on February 18, 1993 and shall remain in effect until February 17, 2003 unless revoked and reissued, terminated (40 CFR 270.41 and 270.43) or continued in accordance with 40 CFR 270.51. It shall remain in effect even if Part I is terminated or has expired.

Done at Kansas City, Kansas, this 14th day of December, 1992.

David A. Wagoner
Director, Waste Management Division

A modification has been incorporated into this Permit to reflect an expiration date of **May 10, 2019**.

John J. Smith, Acting Director
Land, Chemical and Redevelopment Branch
