C. Rate Information

## A. Background

As required by City ordinance, the Lawrence Municipal Services & Operations (MSO) Department prepares an annual report for the City Commission detailing the receipt and expenditure of system development charges on or about March 1 of each year. As required by 19-905(B) of the City Code, the report shall provide the following:

- detail the receipt and expenditure of system development charges
- review the rates of system development charges
- report on matters concerning the administration of system development charges

The following timeline illustrates the history of the system development charges:

- July 2, 1996 The City Commission passed Ordinance #6791 establishing system development charges for water and sanitary sewer customers to fund improvements to the City's utility system.
- January 1, 1997 The Department of Utilities implemented year 1 of a 3-year phased-in approach for system development charges.
- September 21, 1999 The City Commission adopted Ordinance #7138 to update the development charges from January 1, 2000 through 2004.
- August 23, 2004 The City Commission adopted Ordinance #7809 to update the development charges for water and sanitary sewer from 1/1/2005 through 2009.
- August 14, 2007 The City Commission replaced Ordinance #7809 with Ordinance #8134 to update the development charges effective on January 1, 2008.
- August 26, 2008 The City Commission replaced Ordinance #8134 with Ordinance #8308 to update the development charges effective on January 1, 2009. This remains the rate schedule for 2012.
- March 26, 2013 The City Commission replaced Ordinance #8303 with Ordinance #8847 to set charges effective May 1, 2013 and each year after that effective January 1 beginning 2014 through 2017.
- November 15, 2017 The City Commission replaced Ordinance #8847 with Ordinance #9375 to update the development charges effective January 1 beginning 2018 through 2022.

## B. <u>Receipt and Expenditure Information</u>

Funds generated from the system development charges are deposited into the City Water and Sewer Fund Account to fund improvements to the City's water and wastewater utility system. These funds are used to pay for utility system design and construction costs, interest and debt issuance costs, and capital improvements, which expand the capacity of the water and wastewater systems. Water system development charge collections are designated to be used only for water utility capital improvements, and wastewater system development charge collections are designated to be used only for wastewater utility capital improvements. The funds collected in a given year are expended in the following year. Table B1 shows the 2017 and 2018 water and wastewater system development charges collected. Table B2 shows 2018 water and wastewater system development charges collected by month. Further detail describing the implementation of system development charges can be found in the most recent version of the water and wastewater rate study.

The MSO Department processed and collected system development charges on applications for service in 2018. Table B3 shows the total number of service applications received by the MSO Department that were paid for in 2017 and 2018 for residential service. While Table B4 shows the total number of service applications received by the MSO Department that were paid for in 2017 and 2018 for non-residential service.
